

The Institute for Medical Education (IML) www.iml.unibe.ch/en/iml is a center of excellence in medical education. As a university institution, we work in the fields of research, teaching, service and development and supervise projects at the cantonal, national and international level.

In cooperation with the European Respiratory Society (ERS) www.ersnet.org, which has over 40,000 members worldwide and whose mission is to drive standards in education and promote the best research in respiratory medicine, we are seeking to fill the following post immediately or upon agreement.

PhD Student in Medical Education 100%

PhD Project Description

Continuing Professional Development (CPD) of physicians is meant to ensure that physicians are competent for serving their patients. Within this PhD project, factors will be investigated on how to make CPD as effective as possible for both physicians and their patients. The PhD project will include the execution and dissemination of four scientific studies, completion of further education courses and participation in international conferences. The post holder will be enrolled in the Graduate School for Health Sciences (GHS) at the University of Bern in Switzerland www.ghs.unibe.ch/.

Requirements

- University degree in medicine, psychology or social sciences
- Methodological and statistical knowhow (preferably in both quantitative and qualitative methods)
- Flair for scientific writing
- Profound knowledge of English both written and spoken
- Good team working skills
- Master of Medical Education and German language skills are of advantage

We offer

- Excellent supervision and collaboration in a motivated, interdisciplinary team
- Collaboration with the European Respiratory Society, a world-leading medical organization working to promote lung health and combat lung diseases
- Great deal of flexibility (Annual Working Time)
- Fully funded further education as part of the PhD project in the Graduate School
- Remuneration in accordance with the guidelines of the Swiss National Science Foundation (SNSF)

Please send your application with the usual documents electronically to eveline.goetschmann@iml.unibe.ch by the 8th of March 2019 at the latest. For questions please contact Sören Huwendiek, MD, PHD, MME: soeren.huwendiek@iml.unibe.ch.
